

## **About the Hospital**

St. Joseph's Hospital is located in Gandhidham city, behind IFFCO colony in Kutch District. St. Joseph's Hospital is run by S.D sisters. This institution is run by catholic nuns and supported by a team of well qualified and dedicated doctors and nurses.

It is an 85-bedded hospital, started functioning from January 24<sup>th</sup> 1994. Rendering hospital facilities and selfless services since the last 25 years and creating a place for itself in the hearts of the people. We are privileged to have a fully established and dedicated gynecology department. Our medicine department is also functioning round the clock.

As a response to the need of the time we have converted our hospital for covid 19 patients. For the betterment of Intensive Care Unit for Corona patients, there is a need of new equipments like ventilators, Bi pap, Cardiac monitors, new oxygen connections, N 95 masks and ECG machines to provide quality medical service. Due to the lack of equipments in ICU, doctors find it difficult to provide better medical care. So we are referring them to higher centers for better treatment and there they have to spend huge amount of money which is not affordable for the poor patients. Therefore with the help of this project we shall provide good service for betterment of corona patients in the surrounding areas of this institution.

. We have completed 7 months in taking care of covid 19 patients and so far have treated and looked after 600 Covid 19 patients. We have 15(Eleven) ICU beds and 70 oxygen beds.As the number of Covid 19 patients are increasing there is a felt need for ICU care. We will be very happy if you could support us for this noble cause.
